Ocean temperature and salinity during spin-up

Deviations from the cycle-2 baseline across three model depth levels over repeated ROMS cycles.

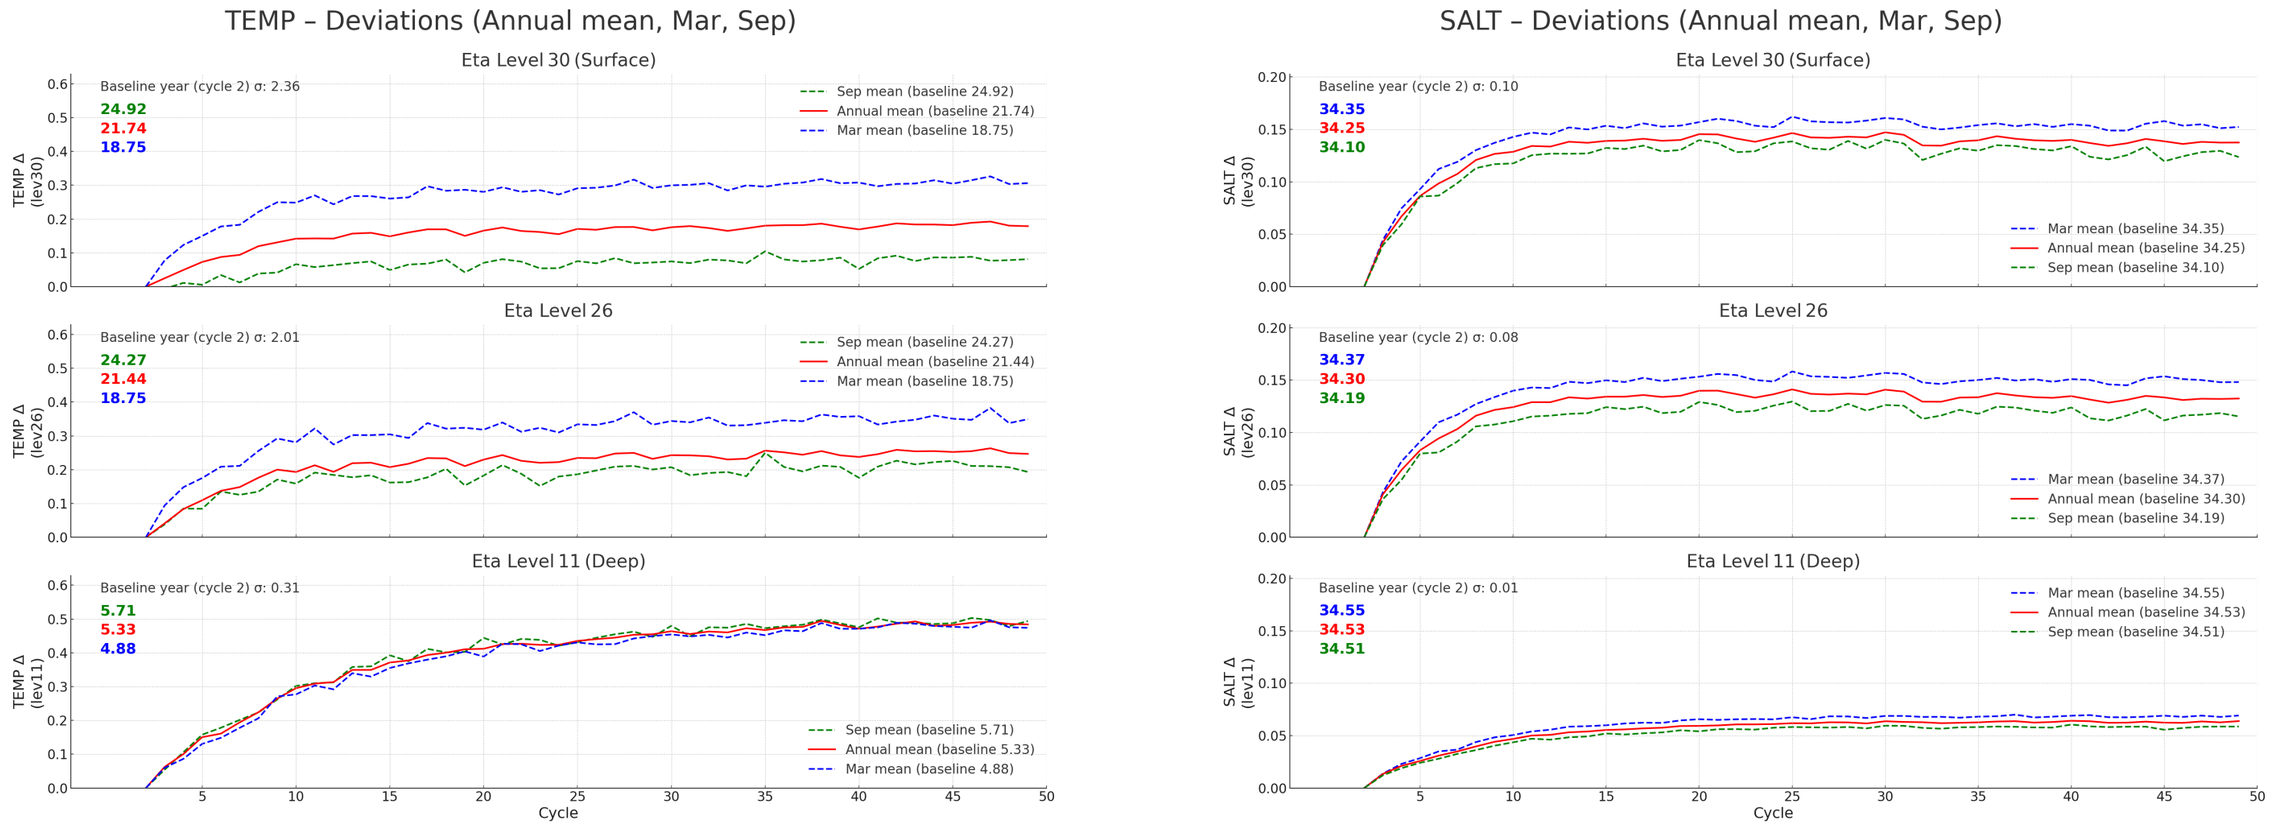

Figure excerpt from the CORDEX Junko final report, slide 18.

Also presented by Junseo Park and colleagues at the Korean Meteorological Society Spring Meeting (2025), poster P-140.

Sea surface temperature and model bias

1993 domain-mean temperature in COAWST with and without ocean spin-up, evaluated against GLORYS.

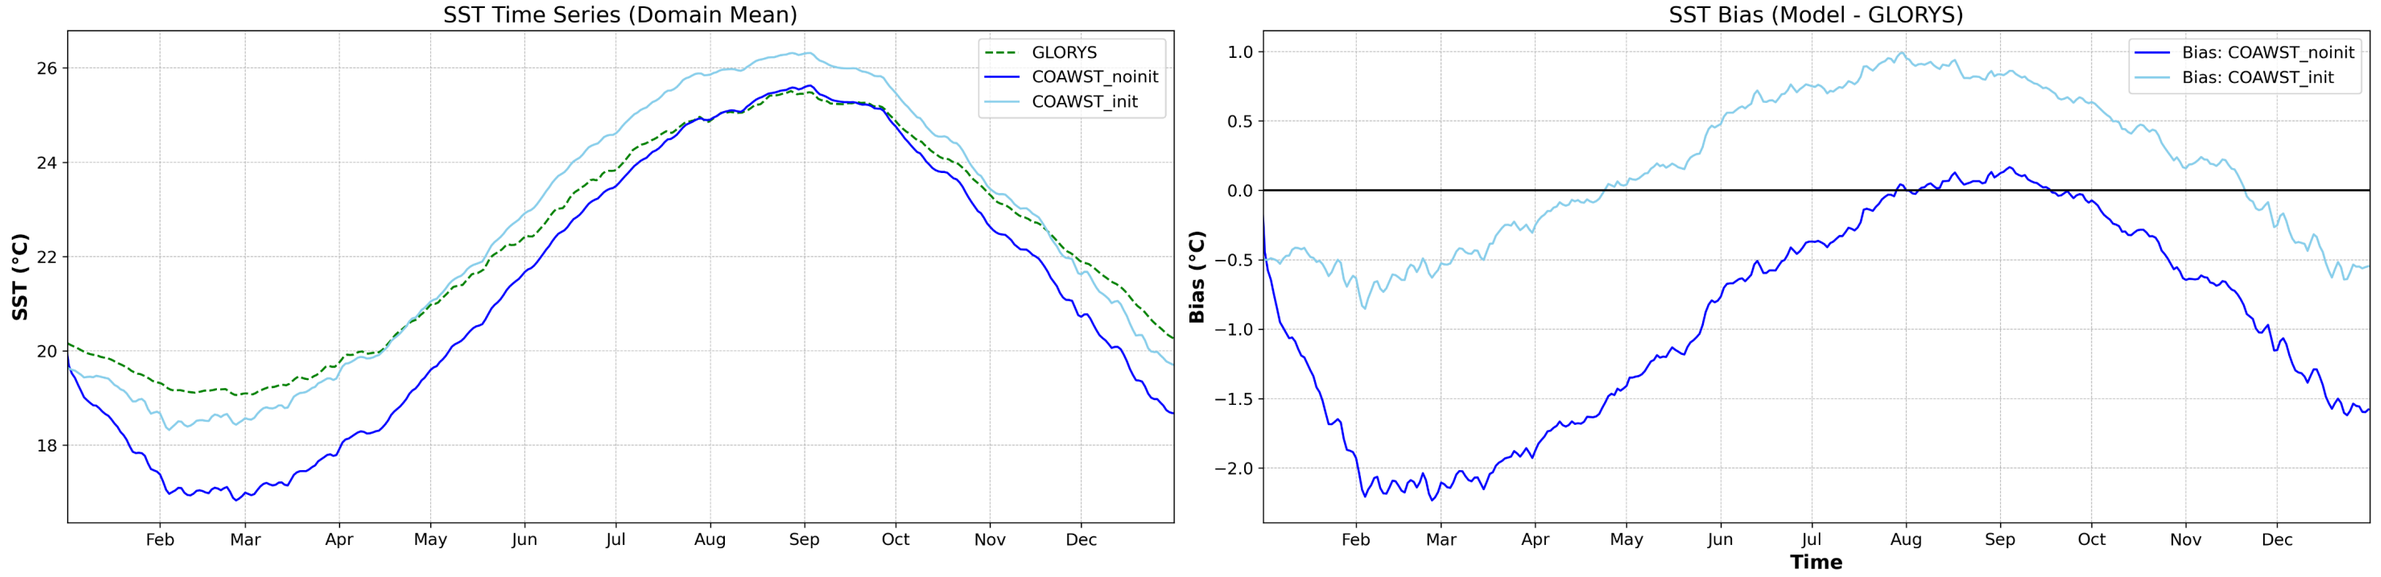

Figure excerpt from the CORDEX Junko final report, slide 19.

Also presented by Junseo Park and colleagues at the CORDEX East Asia Workshop (Kyoto, 2026), poster P21.
